JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

with paragraph 2 in act of July 12, 1848, relating to quarantine, all ports in Japan, Argentina, the Sandwich Islands, and New Caledonia, shall until further orders be considered infected with the oriental plague and that the rules and regulations, contained in the above-mentioned act and in mandate of September 12, 1899, relating to quarantine, etc., in consequence of plague, shall at once as regards such ports take effect.

At the same time it is also proclaimed that the ports of Egypt and Santos, in Brazil, which, by above-mentioned proclamations of June 27 and October 27, 1899, were declared infected with plague, shall no longer be considered so infected—to which all concerned respectfully have to conform—which is hereby made public, while attention is brought to the fact that under the above-mentioned proclamations of February 1, 1897, June 27, August 22, October 10 and 27, and December 5, 1899, the city of Oporto, in Portugal, Mozambique with Lorenzo Marques, Arabia, Persia, India, China, Formosa, Mauritius, Madagascar, and the ports in Paraguay, until further orders, are considered as infected with the oriental plague.

A number of copies of this notice follow.

EINEAR LOCHEN,
GEORG JOHANNESSEN.

PHILIPPINE ISLANDS.

Report from Manila—Plague and smallpox.

MANILA, P. I., March 7, 1900.

SIR: I have the honor to hereby inform you that during the week ended March 3, 1900, there were 7 cases of plague in Manila, and that all resulted in death. Four Chinese and 3 natives were affected.

There is little change in the situation and an increased number of cases may be expected.

There were no cases of smallpox reported to the board of health during this period.

Respectfully,

J. C. PERRY,
Passed Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

PORTO RICO.

Reports from Ponce.

PONCE, P. R., April 2, 1900.

SIR: I have the honor to transmit herewith the quarantine and abstract bills of health reports for the week ended March 31, 1900, also, monthly report of immigration and summary of transactions for the month of March, 1900. During the week 323 emigrants sailed for Daiquiri, Cuba. Influenza (la grippe) is mildly epidemic but does not seem to be severe in character. The 3 cases of smallpox previously reported are still in quarantine. Several cases of chicken pox have been reported and are always treated in the same manner as smallpox. Six cases of diphtheria were reported.

Respectfully,

W. W. KING,
Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.
